Preamble:

University Grants Commission (UGC) has initiated organisation of Induction Program with a purpose to help students acclimatised with the new surroundings, develop bond with fellow students and teachers, sensitivity towards various issues of social relevance and imbibe human values so as to become the responsible citizens. Ensuring a well designed Induction program will help both teachers and students for setting the pace of fruitful teaching-learning experiences.

The goal of engineering education is to train engineering graduates well in branch of admission, have a holistic personality and must have desire to serve society and nation. It is expected that an engineering graduate work for solving the problems of society using the modern technologies and practices. That needs the broad understanding of the society and relationships. It is needed to cultivate the human values in engineering graduates to fulfil his responsibilities as an engineer, a citizen and a human being. Considering the various social backgrounds and whether a student comes from the urban or rural areas they differ in many of the life skills and their abilities and thinking.. To overcome on issues, it is necessary to create an environment for students so that they feel comfortable, find their interest and explore their inner beings, create bonding with other students, establish relation with teachers, work for excellence, get a broader view of life and practice human values to build characters. The Induction Program covers the various activities which enables them to overcome all such issues and motivates them to perform well in their chosen branch of admission.

Following are activities under the induction program in which students are fully engaged throughout.

1. Lecture by Eminent people
2. Universal Human values
3. Familiarization to Dept/Branch
4. Extra-Curricular Activities in College
5. Physical activities
6. Proficiency module
