**CHH. SHAHU COLLEGE OF ENGINEERING,
CHHATRAPATI SAMBHAJINAGAR
DEPARTMENT OF ELECTRICAL ENGINEERING**

Name of the event:	Industrial visit to Greaves Cotton Ltd.
Date of the event:	21 st August 2026.
Participants	Students of Final Year Electrical Engineering (Total: 45 Students & 3 Staff)
Name and Address of the Industry	MIDC Industrial Area, Shendra MIDC, Kubhephal, Maharashtra 431154
Summary of the event:	Greaves Cotton is an established Indian engineering company working in powertrain solutions, electric mobility, automotive components, and related engineering services. During the visit, students were introduced to the company's manufacturing activities, production workflow, quality practices, maintenance requirements, safety culture, and the role of automation in industry. The company's team spread awareness among students regarding current developments in sustainable mobility. They also informed students about the manufacturing of electric-vehicle powertrains in Chhatrapati Sambhajnagar and its connection to the production of advanced electric motors and controllers for mobility applications. This exposure encouraged students to understand the expanding role of electrical engineers in EV propulsion, motor design, and motor control.
Outcome:	➤ The visit helped students relate classroom subjects such as electrical machines, industrial drives, control systems, power electronics, electrical maintenance, testing, instrumentation, and energy management to their actual use in a production plant. ➤ Students understood the relevance of electrical machines, power electronics, sensors, controllers, and condition-monitoring techniques in modern industries. ➤ The visit helped students achieve the CO related to electric propulsion motors, power-flow paths, and control strategies of electric powertrains.
