**Why IP Must Be a People's Movement – Like Swachh Bharat**

- **IP education must start early** — Introduce Intellectual Property concepts from **Class 8 onwards** to build awareness and capability in young minds.
- **Government schemes like NIPAM and KAPILA** are commendable but need **greater reach and deeper implementation** across the country.
- **Embed IP Clinics in academic exhibitions** — Every student project should be evaluated by: An **IP attorney** (for protectability), An **industry expert** (for usability), and An **investor/mentor** (for scalability).

As **Prof. Jaideep Prabhu** aptly puts it:  
*"Innovation is not just about ideas, but about executing and protecting them in frugal, scalable ways."*
