

## REPORT ON

### 2 -DAYS WORKSHOP ON PCB DESIGN & MANUFACTURING

**Organized by ISTE Students Chapter (MH-316) in collaboration with Department Students Club,  
Dept. Of Electronics Engineering (VLSI D&T)**

**Date:** 10/10/2025 & 11/10/2025

**Time:** 11:00 AM to 05:15 PM

**Venue:** Smart Classroom (A-206), 2<sup>nd</sup> Floor, A Building, CSMSS Chh. Shahu College of Engineering,  
Chhatrapati Sambhajinagar (M.S)- 431002

**Goal:** To provide hands-on training and practical knowledge of designing and manufacturing Printed Circuit Boards (PCBs), enabling students to bridge the gap between theoretical electronics concepts and real-world hardware implementation.

**Objective:** The main objectives of the workshop were as follows:

1. To introduce students to the fundamentals and importance of PCB design in electronic systems.
2. To provide step-by-step training on PCB design software tools and schematic creation.
3. To familiarize students with PCB layout rules, routing techniques, and design optimization.
4. To give practical exposure to PCB manufacturing processes and workflows.
5. To enhance students' technical competency and readiness for industry-level electronic design projects.

**Benefits to Students:** Following mentioned are some benefits that students got through this program.

1. Gained practical experience in PCB design tools and schematic drawing.
2. Understood the complete workflow from circuit design to physical PCB manufacturing.
3. Developed skills in component selection, routing, and layout optimization.
4. Improved employability in VLSI, electronics design, and embedded system industries.
5. Received a certificate of participation, adding value to their academic and professional profile.

#### **Outcomes of the Workshop: -**

1. Students learned end-to-end PCB design and manufacturing workflow.
2. Participants gained hands-on experience in schematic creation, routing, and layout optimization.
3. Improved understanding of design rules, component selection, and error checking techniques.
4. Students were motivated to design and fabricate their own PCB-based mini projects.

#### **About the Event:**

The 2 Days Workshop was conducted on "**PCB Design & Manufacturing**" at Department of Electronics Engineering (VLSI D&T), CSMSS Chh. Shahu College of Engineering organized by ISTE Students Chapter (MH-316) in collaboration with Department Students Club on 10<sup>th</sup> & 11<sup>th</sup> October 2025 (Friday & Saturday).

#### **Day 1 (Friday, 10<sup>th</sup> October 2025): -**

1. The workshop began with the arrival of guests, followed by Saraswati Poojan and lamp lighting ceremony.
2. The dignitaries present were the Speaker Guest Mr. Pawan G. Alhat, Principal Dr. G. B. Dongre, Vice-Principal Dr. D. L. Bhuyar, HOD (EE-VLSI D&T) Dr. Shrikant J. Honade and HoD (ECE-ACT) Dr.

- Syed Sumera Ali & all faculty members of Dept. of EE(VLSI D&T).
3. The program included the introduction and felicitation of the guest and addresses by the HOD (EE-VLSI D&T) Dr. Shrikant J. Honade and Principal Dr. G. B. Dongre.
  4. The expert speaker, Mr. Pawan G. Alhat, Senior Project Engineer from NIELIT Aurangabad, initiated the technical sessions.
  5. The first day covered sessions on:
    - o Fundamentals of PCB Design and Schematic Creation
    - o Component Selection and Schematic Drawing
    - o Electrical Connections and Netlist Generation
  6. A hands-on practice session was conducted to give students practical exposure to the software environment.

**Day 2 (Saturday, 11<sup>th</sup> October 2025):-**

1. The second day began with a recap and practice session based on the previous day's learning.
2. Sessions conducted included:
  - o PCB Layout Rules and Placement
  - o Routing and Design Optimization
  - o Finalizing PCB Design
  - o PCB Manufacturing Workflow
3. The resource person demonstrated the complete process of moving from design to manufacturing of a PCB.
4. Prof. Ganesh G. Patil, Mr. R. M. Chudiwal, Event Coordinator and Mr. T. A. Mohije, Mr. P. N. Kathar and All Faculty members of EE (VLSI D & T) department coordinated the workshop.
5. The workshop concluded with a valedictory session in the presence of the Principal, Vice Principal, HODs, faculty members, and student coordinators.
6. Dr. Shrikant J. Honade, HoD EE (VLSI D & T) delivered the vote of thanks, expressing gratitude to the Principal for their support, the Resource person from NIELIT Institute for their invaluable contributions, the organizing team for their hard work, and the participants for their active engagement. The HOD emphasized the significance of continued learning and innovation in the field of PCB.
7. Certificates of participation were distributed to all attendees on successful completion of the two-day workshop.
8. Around 80 students were present and benefitted from the workshop.

The workshop successfully achieved its objectives by providing students with practical knowledge and industrial exposure to PCB design and manufacturing processes. The department extends sincere gratitude to the Management, Principal, and Resource Person for their continuous support and encouragement in organizing such skill-oriented technical events.
